Treatment for common conditions

Select "primary care."

Who are you looking for?

Primary Care

Family doctors, internists, OB-GYNs, pediatricians

Specialty Care

Dermatologists, cardiologists, oncologists, more

Medical Groups

Small practices or large organizations of doctors

The next option will provide several ways to search for a primary care physician.

Which type of primary care provider (PCP)?

All Primary Care Providers

The first person you call when you have a medical concern. Primary care providers can be doctors in family practice, internal medicine, pediatrics or other specialties.

Primary Care Medical Group

Primary care medical groups have multiple doctors who can provide primary care. These groups range from small practices to large organizations of doctors.

Community Health & Rural Clinics

A Community Health Center (also known as a Federally Qualified Health Center) provides comprehensive primary care, behavioral health services, and dental care to all patients regardless of their ability to pay. Rural Health Clinics provide primary care in rural areas.

Family Doctor

Family physicians provide preventive care and treatment for people of all ages. Practices may include obstetrics and gynecology, internal medicine, pediatrics, geriatrics, and psychiatry.

You can then choose your primary care physician. There are options to filter and sort to assist with the search. Click on the provider to locate the primary care physician number (provider id number).
