Step 6: Change Location based on Zip code or City and state. Then select what find of Care you want to search for. We selected "People" for this example and left the location in CA.

What type of Medical Care can we help you find near:

Los Angeles, CA 90012

[Change Location >](#)

Search for providers and services

[Search](#)

Find Care by Category

People

Doctors, medical groups, and other professionals by specialty

Places

Hospitals, clinics, labs, imaging centers, medical suppliers

Services and Treatments

Providers for office visits, tests, treatments, surgeries

Care by Condition

Find care for common concerns

Cost Estimates

Treatment for common conditions

Step 7: Select type of Provider you would like. We have selected Primary Care.

Who are you looking for?

Primary Care

Family doctors, internists, OB-GYNs, pediatricians

Specialty Care

Dermatologists, cardiologists, oncologists, more

Medical Groups

Small practices or large organizations of doctors

Step 8: You can change this based on what you are specifically looking for, but for this example we are selecting 'All Primary Care Providers'

Which type of primary care provider (PCP)?

All Primary Care Providers

The first person you call when you have a medical concern. Primary care providers can be doctors in family practice, internal medicine, pediatrics or other specialties.

Primary Care Medical Group

Primary care medical groups have multiple doctors who can provide primary care. These groups range from small practices to large organizations of doctors.

Community Health & Rural Clinics

A Community Health Center (also known as a Federally Qualified Health Center) provides comprehensive primary care, behavioral health services, and dental care to all patients regardless of their ability to pay. Rural Health Clinics provide primary care in rural areas.

Family Doctor

Family physicians provide preventive care and treatment for people of all ages. Practices may include obstetrics and gynecology, internal medicine, pediatrics, geriatrics, and psychiatry.

Generalist

Generalists (also general practitioners or GPs) prefer not to focus on a narrow specialty. Most provide primary care and usually are family doctors, internists, or pediatricians.

Step 9: You will see results here and can tailor them based on filter options and distance.

 **Results for All Primary Care Providers**  [NEW SEARCH](#)

Office visit with a provider; 20-29 minutes - Primary Care - billed under medical benefit - 99213 (CPT)
Total average cost in your area: \$71 - \$210
